News items under caption "Export for Expansion of Irrigation"

1838. SHRI RAM JETHMALANI:
SHRI RANJIT SINGH:

Will the Minister of WATER RESOURCES be pleased to state:

(a) whether Government's attention has been drawn to a news-item published in the 'Hindustan Times' dated 13th June, 1991; under the caption "Export for expansion of irrigation";

(b) if so, whether it is a fact that in the study report submitted by the eminent economist, Dr. S. P. Gupta it has been termed as essential to increase the irrigation capacity of the country;

(c) if so, what is Government's reaction in this regard;

(d) whether Govt. have decided to implement any projects to increase the irrigation capacity in the country in the coming years; and

(e) if so, what are the details thereof and as per the decision taken so far what targets have been fixed for generating the irrigation capacity in the country and by when this target would be achieved?

THE MINISTER OF WATER RESOURCES (SHRI VIDYACHARAN SHUKLA): (a) and (b) Yes, Sir. Dr. Gupta has suggested that for meeting the food requirement of 240 m T by the year 2000 A.D., the irrigation potential is to be increased to 100 m. ha.

(c) Since the start of planned development in 1950-51, when irrigation potential was 22.61 m.ha., greater emphasis was given for increasing irrigation facilities in the country. As a result, irrigation potential at the end of VII Plan has increased to 79.4 m.ha. At the present growth rate of expansion of irrigation facilities, the potential that will be created by the end of the year 2000 is expected to be more than 100 m.ha.

(d) Since the commencement of the First Five Year Plan, 264 major and 1088 medium irrigation projects have been taken up for construction with a view to enhance the irrigation facilities in the country. At the end of VII Plan, there were 168 major and 288 medium on-going irrigation projects. Priority has been given to the completion of the on-going projects.

(e) The anticipated achievement of irrigation potential during 1990-91 was 2.85 m.ha. and the target for creation of irrigation potential during 1991-92 is 2.78 m.ha. VII Plan proposals have not been finalised.
